

Math Homework

Week of 11/4/13-11/8/13

Due: Monday, November 11, 2013

Scholars will be working on two strategies making ten and making hundred. We will continue to work with measurement and place value.

Thank you,

Ms. Miranda

Activity List

Explain one of the mental strategies below and give an example.

- Making Ten
- Doubles
- Near Doubles

Make a game that helps you practice making ten.

Write a word problem that has two digit numbers.

Measure 10 objects in your home using inches.

Count all the change you can find around your house. Make sure you record your thinking.

Look for numbers around your home. Write down what numbers you found and where you found them.
