## Math Homework

Week of 11/18/13-11/22/13

## Due: Wednesday, November 27, 2013

Hello HAL Families,
Math homework will be a little different this week. In addition to Stride Academy, each scholar will be doing a measurement project (attached). The project is due the next Wednesday. This sheet will also be due next Wednesday. Please don't wait to get started. Do a little bit of the project each night. I expect the final project to reflect 7 night of homework, roughly 60-70 minutes of work. This week we'll be measuring in inches, making ten/hundred, and working with coins.

Thank you,
Ms. Miranda
